DIGITUS LED lights

DN-LIGHT
EAN 4016032460039

LED lighting, compact, magnetic, sensor turnable magnet fixing, incl. power adapter

The LED light can be used flexibly thanks to the 180° rotatable magnetic attachment. With its compact design, it can be installed not only in 482.6 mm (19") cabinets, but also in 254 mm (10") cabinets or on any other magnetic surface. It can be used horizontally or vertically and provides optimal illumination by means of high-performance LED lamps, which provide the maximum luminosity directly without a warm-up phase. The LED light is equipped with a sensor mode. When it is enabled (green indicator lights up), the light switches on when there is any movement in front of the sensor and off again after 30 seconds of inactivity. Alternatively, you can set the light to steady light (as long as it is connected to the power source) by disabling the sensor (green indicator is off) - all with just one button. A power adapter is included, so the LED light is immediately ready for use.

The perfect light source in your enclosure. Can be installed horizontally or vertically via 180° rotatable magnetic attachment.

- Nominal input voltage: 100-240 V
- Input frequency: 50/60 Hz
- Operating voltage: 24 V/DC / 250 mA
- Power: 5 W
- Control: IR sensor (detection range: 3-5 m, hold time: 30 s)
- LED DC input connector: 3.5 mm; 1.5 m in length
- Luminous flux: 350 lm
- Colour temperature: 6000K
- Service life in hours: 10000
- Storage/operating temperature: -40 °C to +85 °C; -20 °C to +45 °C
- RAM relative humidity: 0-95% RH non-condensing
- Silver aluminium enclosure
- CE & RoHS compliant

Package contents

- LED lights
- Power adapter
- Polybag with accessories (1x metal holder, 2x screws, 1x adhesive strip)
