

# DIGITUS Home & office 3-way socket strip with 1 x USB-C™ / 1 x USB-A port

DA-70619

EAN 4016032460633

## 3-way Office Power Strip with 1x USB and 1x USB C Switch, USB out: 5V/3A, black/silver

The DIGITUS® multi socket strip with Power Delivery can be used to charge both USB-A and USB-C™ compatible devices. For example, you can simultaneously charge your smartphone, tablet or laptop. All safety sockets can be used simultaneously without any trouble. Thanks to the clever 45° layout, even large power converters and bulky right-angle plugs can be used without blocking or covering the neighbouring sockets. In addition, you can set up the socket strip in different ways and optimally position it wherever you need using the clamp mount, which can be inserted on both sides. To save space, the socket strip can also be mounted on the wall using the pre-drilled mounting holes. Protect yourself and your family from electric shocks with the integrated shutters and the resulting increased protection against accidental contact of the protective contact sockets. The 1.5 m mains cable gives you plenty of flexibility to position the socket strip wherever you need it. The high-quality aluminium case rounds out the exquisite design of this multifunctional socket strip.

## 3-way office socket strip with USB-C™ / USB-A charging ports for mobile devices in a high-quality aluminium case

- 3 x safety sockets in 45° arrangement, also suitable for bulky right-angle plugs
