

DIGITUS Voice Operated, Smart, Full HD Outdoor Camera, Wireless, Battery Operated

DN-18600

EAN 4016032463146

Smart Wireless Outdoor Battery Camera, Full HD 2MP, H.264, 11N, Day&Night, 130°, PIR, IP54

Save yourself tedious wiring of electricity and network cables by using the battery-operated WLAN camera from DIGITUS®. The camera is equipped with a 130 ° wide angle lens and sharp Full HD resolution, so you won't miss any details in the monitoring area. Automatic day / night vision switching offers a clear view even in absolute darkness. Battery operation means that you are 100% flexible when it comes to the installation location, Simply position the camera within range of your wireless network. The included magnet hinge bracket makes mounting simple. The bracket is mounted using a screw, then the camera can be taken off the magnetic attachment or put back on easily at any time, for example to recharge the batteries. The rechargeable batteries can also be recharged with an additionally available solar panel via the USB port, which means that the camera doesn't need to be removed for recharging. This is particularly useful in inaccessible locations. The integrated motion detector in the camera can be switched on using the free app, so that you can be notified of movements in the camera range via push notification with image. An additional alarm, which is emitted from the integrated speaker of the camera, can also be activated. The available microSD card slot can be used for cards up to 64 GB, so that recordings can be stored for longer periods and retrieved at any time. Two-way audio transmission means that acoustic signals in the area of the camera can be transmitted to your smartphone and also that announcements from the microphone of your smartphone can be emitted through the speaker on the camera. The live image from the camera and all settings can be easily viewed and set using the app, regardless of your location (mobile reception required). The camera is designed for a variety of applications both indoors and outdoors, for example in the home, office, garden, garage, or also as a baby monitor. Focus on safety and flexibility with the voice operated Full HD outdoor camera from DIGITUS®.

Supports Amazon Alexa & Google Assistant - wireless, battery operated, for protected outdoor areas

- Video resolution: 1920 x 1080@15 BpS (Full HD)
- Video compression: H.264
- Lens: FOV: 130° wide-angle lens
- Infrared LEDs: 9
- Night vision range: 6 m
- Motion sensor range: 6 m
- Ready for operation after standby in 3 seconds
- Integrated speaker and microphone
- Two-way audio with noise reduction
- Connection type: Wireless LAN
- Wireless LAN: 2.4 GHz (802.11b/g/n)
- Wireless LAN range: 60 meters without obstacles / approx. 15 metes in buildings depending on conditions
- Wireless LAN range: 60 meters without obstacles / approx. 15 metes in buildings depending on conditions
- With microSD card slot
- microSD card storage capacity: Up to 64 GB
- Power consumption: Standby: 200 µA / operation: 220 mA
- Batteries: 4 x AA (not included)
- USB power supply: 5 V DC
- Operating temperature: -10 °C ~ 60 °C
- Storage temperature: -20 °C ~ 60 °C
- Protection class: IP54
- Dimensions: L 100 x W 50 x H 80 mm (with bracket)
- Weight: 164 g (incl. bracket)
- Color: White

Package contents

- Smart Wireless Outdoor Battery Camera, Full HD
- Magnetic bracket for wall mounting
- Micro USB connection cable
- QIG
