

DIGITUS Consolidation Point Box for Keystone Modules / Fiber Optic Coupler

DN-93708-1
EAN 4016032463481

CP Box for 12xKeystone, 6xLC DX

Consolidation points (CP) are collection points for structured building cabling, primarily in commercial or industrial sectors. These core elements for cabling systems are used in buildings and open-plan offices as a connection point and distribution point for workspaces. The DIGITUS® Consolidation Point Box can be used either for copper or fiber optic technology, with 12 slots for Keystone modules or 6 slots for fiber optic couplers, SC Simplex or LC Duplex. The box also offers the option of installing a splice cassette for the consolidation of fiber optic cables. The box can be used as a wall installation, in ceilings, sub-floor surfaces or as a desktop version. Installation on profile rails is also possible with optional accessories (AN-25188). A cost-effective, flexible solutions for a wide variety of sectors and applications.

Suitable for copper and fiber optic technology: the optimal solution for flexible network cabling

- Removable Holder for 12 x Keystone Modules

- Removable holder for 6 x LC Duplex / 6 x SC Simplex Fiber Optic Couplers
- M5 threaded screws for the installation of splice cassettes
- 4x drill holes for surface-mounted wall installation
- Hinged cover with quick-release fastener
- Material: Sturdy sheet steel
- Color: Black
- Protection type: IP20
- Dimensions: W 252 x D 203 x H 54 mm

Package contents

- Consolidation Point Box
- Retaining screw for splice cassettes M5
- 24 x cable tie
- 2x adhesive socket with cable driller
- Modules not included in delivery
