DIGITUS®

DIGITUS Wall Mount for Flat Screens, Portrait / Landscape Format

DA-90376
EAN 4016032464457

Landscape/Portrait Wall Mount, 80" max. 50 kg load max, quick release, black

The DIGITUS® wall mount is suitable for mounting flat screens, curved displays or whiteboards with a screen diagonal between 37 and 80 inches. The mounting plate is intended for displays with a maximum weight of 50 kg and can be rotated 360°. This allows you to switch between portrait and landscape-format. The quick release function and the automatic spring lock mechanism enable you to quickly fit or remove monitors and TV devices of all sorts. The monitor mount is slid into the existing wall mount duct and snaps in automatically. To remove the display, pull at the magnetic drawstring that unlocks the spring mechanism - adjusting between portrait and landscape-format works in the same way. The end of the drawstring is equipped with a magnet which fixes it to the wall mount behind the TV to hide it. If you're looking for an ultra flat wall mount with a rotation function, this DIGITUS® mount is just what you need!
