EAN 4016032465096

Height Adjustable Table Frame, 4-leg f2f Double Workstation, black

With this electrically height-adjustable desk base from DIGITUS® you can easily convert your desk into an ergonomic sit / stand workstation. Save the cost and hassle of finding a height-adjustable desktop and just use the electrically adjustable upgrade kit for a double workstation. This model can be used for tabletops with a length of 110 - 220 cm (per workstation). Using the integrated control panel, you can save 3 different height positions and access them any time at the press of a button. The current height is shown on the display. Integrated collision protection prevents collision with any obstacles when raising or lowering the table and can be adjusted with 8 sensitivity levels. Using the timer, you can also receive reminders at specific intervals to use the standing function.

Convert two standard desks into an ergonomic double workstation. Electrically height-adjustable, flexibly extendible with collision protection and memory function for height adjustment.

- With memory function for 3 height settings & minimum / maximum setting
