# DIGITUS Electric Height-Adjustable Desk Frame, 120° Corner Design

**DA-90392**
**EAN 4016032465102**

**Height Adjustable Table Frame, 3-leg 120 degree, black**

With this electrically height-adjustable desk base you can easily convert your desk into an ergonomic sit / stand workstation. Save the cost and hassle of finding a height-adjustable desktop and just use the electrically adjustable upgrade kit with 120° corner design. This model can be used for tabletops cut to size with a length of 120 - 200 cm (per side) or for suitable 120° corner tabletops. Using the integrated control panel, you can save 3 different height positions and access them any time at the press of a button. The current height is shown on the display. Integrated collision protection prevents collision with any obstacles when raising or lowering the table and can be adjusted with 5 sensitivity levels. Using the timer, you can also receive reminders at specific intervals to use the standing function. Treat your body to varied, healthy working positions with the electrically height-adjustable desk from DIGITUS®.

**Convert your standard desk into an ergonomic sit / stand workstation. Electrically height-adjustable, flexibly extendible with collision protection and memory function for height adjustment.**
